SCARVES IN SOFT MATERIALS

There is a scarf for every style. Choose from the many soft qualities, beautiful colors and unique designs.

Our scarves are available in three basic models:

Basic Long

This scarf has long ribbons to adjust the size of the scarf and to create volume and effect. The headscarf can be tied in many different ways to achieve the desired look. Style code 8200-XXX.

Basic Short

The Basic Short style with short ribbons is tied in the back where there is a little loop through which you put one of the ribbons to make sure that the scarf stays in place. The scarf is easy to take on and creates the right volume at the back of your head. The scarf can be tied, before you put it on, which is an advantage if you have difficulty lifting your arms after breast surgery. Style code 8202-XXX.

Basic Easy

This model also has long ribbons tied around the crown, so that the scarf is draped and fixed – ready to take on. Basic Easy is for women who want volume from the long ribbons, but who either cannot tie the scarf or prefer not having to tie it. The scarf – or rather crown – can also be used as a hat, "ready-to-go".

Style code 8250-XXX.

Hair pocket

1. Many women like to combine our headwear with an easy, comfortable hair solution. Now you can, with selected scarves in the Christine collection. You will need three clip-in hairpieces. Each section of hair must be 14 cm wide. The length is up to you. You will need 2–3 clips per hair extension. The hairpieces can be purchased from selected hairdressers and wig salons. There are also lots of net options. Both synthetic and natural hair can be used.
2. Take the hair extension and open the clip by pressing lightly in the middle of it.
3. Turn the scarf inside out. Unfold the hair pocket. There are three hair pockets in the scarf. Each hair pocket has two rows for you to fasten the hair extension to. You can select the hair length you want by choosing which row to fasten the hair extension to.
4. Clip the hair extension to the row by the actual band and close the clip by pressing lightly in the middle of the clip. Remember to fasten all the clips – 2–3 per hair extension.
5. Fold the front of the hair pocket over the hair extension to conceal the clips.
6. This is what the lining/inside of the scarf looks like when all three hairpieces have been inserted into the scarf.
7. Tie the scarf in the usual way. Back view of the Christine scarf hair solution.
8. Front view of the Christine scarf hair solution. You can also use the hairpieces for extra volume once your hair has grown back.

WIGLINER

The Christine Wigliner is a quite unique product made of bamboo viscose. It's a small hat to be worn hidden under a wig and it has the superb features that it cools the skin when it's warm and keeps the skin warm when it's cold outside. Furthermore it has a perfect fit. The Wigliner is amazingly soft and silk like to wear – and is of course without any irritating seams. Another advantage is that it can be used under the Christine scarves for further volume and protection.
